

Adam Pangelinan

FRONTEND SOFTWARE ENGINEER | REACT, TYPESCRIPT, LIVE DATA, RELIABLE UI

adamtpang@gmail.com | +60 19 798 1734 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Malaysia | US citizen | No US sponsorship required | Open to US relocation

Frontend-leaning TypeScript engineer with 2 to 3 years of experience shipping user-facing web products. Builds React interfaces around live asynchronous state, API integrations, typed validation, automated tests, and clear human-review boundaries.

SELECTED ENGINEERING WORK

- **skill.supply | React product with live data** | Built and deployed a Next.js 16 product from an empty repository in under two weeks, with structured Anthropic outputs, Zod validation, streamed run state, and live job inventory from 4 ATS APIs plus 6 aggregators.
- **summon.company | Inspectable workflow state** | Added 155 personal commits to a fork of Paperclip. Shipped a register-truth reconciler, task receipts, documentation automation, and Playwright and Vitest coverage for agent-operated workflows.
- **Register-truth evaluation | Failure-boundary quality** | Designed 12 scenarios across five statuses. The real pipeline classified 12/12 correctly with zero false auto-closes in 2 security or payment cases; a focused rerun passed 15/15 tests.
- **Helium Harness | Browser environment tooling** | Adapted browser-use/browser-harness v0.1.9 into a Helium-specific CDP derivative. Added browser discovery, Windows handling, launch behavior, packaging, documentation, and unit coverage; the full local suite passes 141 tests with 2 Windows symlink skips.

EXPERIENCE

Anchor Marianas | Founder and Software Engineer | Oct 2024 to present | Remote

Sold and delivered software directly to clients, including Hilton-affiliated hospitality operators, carrying work from discovery through implementation.

EIGN | Software Engineer and B2B Sales | One-month trial, ended Dec 2025 | Remote

Built Lightmark.app's evidence-backed AI-visibility website diagnostic and worked across engineering, technical discovery, product demos, and outbound sales.

Guam Power Authority | Workflow Automation | 2024 | Guam

Automated a legacy Excel workflow from approximately 2 hours per run to approximately 2 minutes.

SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS, responsive UI, state management

Data and integration: REST APIs, streamed state, structured outputs, Zod validation, live data, Python

Quality and delivery: accessibility, documentation, code review, Playwright, Vitest, pytest, human approval

EDUCATION

App Academy | Full-Stack Web Development | 2022 to 2023 | San Francisco

Completed an intensive full-stack software engineering program.
