

Adam Pangelinan

FULL-STACK SOFTWARE ENGINEER | AI AUTOMATION, BROWSER TOOLING, PRODUCT UX

adamtpang@gmail.com | +60 19 798 1734 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Forest City, Johor, Malaysia | US citizen | No US sponsorship required | Open to New York City relocation

Full-stack TypeScript engineer and founder with 2 to 3 years of experience shipping AI automation from customer workflow to tested product. Builds fast React interfaces, backend services, browser developer tools, and explicit human-control boundaries.

SELECTED ENGINEERING WORK

- **skill.supply | AI automation product** | Built and deployed a Next.js 16 career agent from an empty repository in under two weeks, with live inventory from 4 ATS APIs plus 6 aggregators, structured Anthropic outputs, Zod validation, streamed run state, and human review.
- **Helium Harness | Python browser tooling** | Adapted browser-use/browser-harness v0.1.9 into a public Helium-specific CDP derivative. Added browser discovery, Windows detection, launch behavior, documentation, packaging, and unit coverage; the full local suite passes 141 tests with 2 Windows symlink skips.
- **summon.company | Agent workflow platform** | Added 155 personal commits to a fork of Paperclip. Shipped an auditable register-truth reconciler, task receipts, documentation automation, and Playwright and Vitest coverage.
- **Register-truth evaluation | Reliable handoff** | Designed 12 known-ground-truth scenarios across five statuses. The real pipeline classified 12/12 correctly with zero false auto-closes in 2 security or payment cases; a focused rerun passed 15/15 tests.

EXPERIENCE

Anchor Marianas | Founder and Software Engineer | Oct 2024 to present | Remote

Sold and delivered software directly to clients, including Hilton-affiliated hospitality operators, carrying work from discovery through implementation.

EIGN | Software Engineer and B2B Sales | One-month trial, ended Dec 2025 | Remote

Built Lightmark.app's evidence-backed AI-visibility diagnostic and worked across engineering, technical discovery, product demos, and outbound sales.

Guam Power Authority | Workflow Automation | 2024 | Guam

Automated a legacy Excel workflow from approximately 2 hours per run to approximately 2 minutes.

SKILLS

Product engineering: TypeScript, JavaScript, React, Next.js, CSS, Node.js, Python, REST APIs, Zod

AI automation: structured outputs, streamed state, evaluations, tool use, human review, browser automation, CDP

Quality: Playwright, Vitest, pytest, known-ground-truth tests, protected-action handoff

EDUCATION

App Academy | Full-Stack Web Development | 2022 to 2023 | San Francisco

Completed an intensive full-stack software engineering program.
