## FULL-STACK SOFTWARE ENGINEER | AGENT PRODUCTS, DEVELOPER TOOLS, RELIABILITY

adamtpang@gmail.com | +60 19 798 1734 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Malaysia | US citizen | No US sponsorship required | Open to US relocation

Full-stack TypeScript engineer with 2 to 3 years of experience shipping agent-driven product surfaces end to end. Builds inspectable agent workflows, evaluation systems, developer-tool integrations, and human-review boundaries from ambiguous idea to tested software.

## SELECTED ENGINEERING WORK

- **skill.supply | Full-stack career agent** | Built and deployed a Next.js 16 product from an empty repository in under two weeks, with structured Anthropic outputs, Zod validation, streamed run state, and live inventory from 4 ATS APIs plus 6 aggregators.
- **Register-truth evaluation | Agent reliability** | Designed 12 known-ground-truth scenarios across five statuses. The real pipeline classified 12/12 correctly with zero false auto-closes in 2 security or payment cases; a focused rerun passed 15/15 tests.
- **summon.company | Open-source agent platform** | Added 155 personal commits to a fork of Paperclip. Shipped an auditable register-truth reconciler, task receipts, and Playwright and Vitest coverage for agent-operated workflows.
- **Helium Harness | Browser developer tooling** | Adapted browser-use/browser-harness v0.1.9 into a Helium-specific CDP derivative. Added profile and executable discovery, Windows detection, launch behavior, documentation, packaging, and unit coverage; the full local suite passes 141 tests with 2 Windows symlink skips.

## EXPERIENCE

### Anchor Marianas | Founder and Software Engineer | Oct 2024 to present | Remote

Sold and delivered software directly to clients, including Hilton-affiliated hospitality operators, carrying work from discovery through implementation.

### EIGN | Software Engineer and B2B Sales | One-month trial, ended Dec 2025 | Remote

Built Lightmark.app's evidence-backed AI-visibility website diagnostic and worked across engineering, technical discovery, product demos, and outbound sales.

### Guam Power Authority | Workflow Automation | 2024 | Guam

Automated a legacy Excel workflow from approximately 2 hours per run to approximately 2 minutes.

## SKILLS

**Languages:** TypeScript, JavaScript, Python, Go

**Product engineering:** React, Next.js, Node.js, REST APIs, Zod, live ATS data

**Agent and quality:** structured outputs, streamed state, evaluations, tool use, human review, browser automation/CDP, Playwright, Vitest, pytest

## EDUCATION

### App Academy | Full-Stack Web Development | 2022 to 2023 | San Francisco

Completed an intensive full-stack software engineering program.
